Slim (Gen. 2)

Subject to modifications and errors, picture similar to product

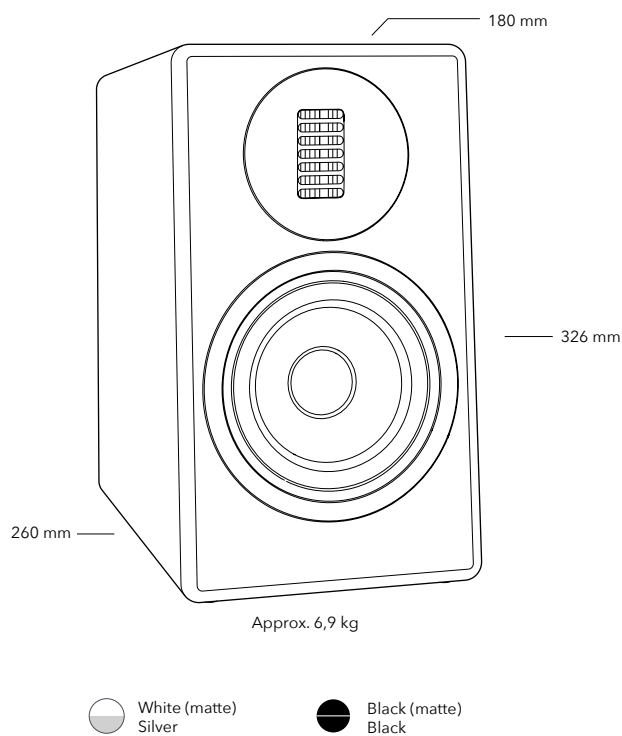

ORCHESTRA SLIM (Gen.2), the perfect addition to your MAESTRO Quantum - together, they make for the ideal combination of design and sound for small to medium-sized rooms. An Air Motion Transformer ensures a highly detailed and crystal-clear sound reproduction in the high frequency range. The carefully tuned crossover connects

the midwoofer made of composite material. The sturdy housing ensures clear, discolouration-free reproduction of voices and instruments. Thanks to its compact dimensions, the speaker blends seamlessly into any interior style.

# ORCHESTRA Slim (Gen. 2)

## DESIGN

- Hand-polished casing with high-quality finish with lacquer
- Rounded edges and selected details in aluminium for an elegant look
- Flush chassis integration without visible screw connections

## AIR MOTION TRANSFORMER

- Silky highs and wide frequency response
- Immersive soundstage

## WOOFER

- Kevlar-reinforced paper / bamboo composite material for powerful performance and rich basses
- Flow-optimised bass reflex tube for voluminous bass response

## TECHNICAL DATA

Type	2-way HiFi loudspeaker
Woofer	5.25" Kevlar-reinforced composite driver (paper/ bamboo) in a sturdy die-cast chassis
Tweeter	Air Motion Transformer (AMT) with neodymium drive, membrane area approx. 85cm <sup>2</sup> (folded)
Cabinet	High-density fibreboard (HDF)
Performance	Recommended amplifier power: from 50 Watt Load impedance: 4 Ohm Frequency range: 42Hz-32kHz @ -6dB Sensitivity: 86dB SPL (2,83V/1m) Crossover frequency: 2.800Hz
Loudspeaker cover	Removable, magnetic
Other	Foam plugs for bass reflex tube M6 screw thread on the underside for mounting on speaker stands
