

THE FIVES | Very compact stereo speakers but extremelly powerful

MID-CENTURY MAGNIFICENT

Incorporating luxury materials such as real wood veneer and tactile switches and knobs, the Klipsch Heritage Wireless series of powered audio systems blends the acoustics and classic design legacy of Paul W. Klipsch with the latest technologies available today.

HDMI-ARC

Using HDMI-ARC, enjoy THE FIVES with your TV with no additional cables or remotes using the included HDMI.

PRECISE, CLEAR & HIGHLY EFFICIENT SOUND, PROPRIETARY TO KLIPSCH

THE FIVES feature 1" titanium tweeters on Tractrix® horns, a proprietary technology that has been the driving force behind the stunningly precise Klipsch acoustics. Each powered monitor also features a 4.5" long-throw woofer and is ported to provide enhanced bass.

EXPERIENCE TRUE HIGH FIDELITY - NO RECEIVER NECESSARY

THE FIVES powered monitors deliver room-filling sound without taking up much space thanks to a built-in amplifier that is custom-engineered for these high-performance speakers, maximizing output and sound quality.

THE MOST VERSATILE SPEAKERS ON THE PLANET WHETHER YOU ARE CONNECTING TO A TURNTABLE, TELEVISION, COMPUTER

Whether you are connecting to a turntable, television, computer, or smart phone, THE FIVES provide the solution. The Fives come equipped with an integrated phono pre-amp, Bluetooth® 5, HDMI-ARC, digital optical, analog RCA and USB inputs, allowing you to enjoy superior stereo sound from a beautifully crafted tabletop stereo system.

Klipsch

HIGH EFFICIENCY AMPLIFICATION

THE FIVES incorporate individual ultra-low noise amplifiers that are custom designed to maximize system performance and eliminate the need for external amplification. World-class Klipsch engineers picked and tuned the components to be an absolute perfect match throughout, making the system sound incredibly immersive and complete.

THE FIVES are also bi-amped resulting in improved clarity and output.

DYNAMIC BASS EQ

As the human ear perceives frequencies differently with variations in output, THE FIVES will dynamically match the ear's ability to hear lower frequencies. Typically, only available with audio/video receivers, dynamic volume is a first for Klipsch powered monitors. What you get is powerful bass whether the listening volume is low, cranked up or somewhere in between).

192 KHZ / 24-BIT DECODING TO SUPPORT HIGH RESOLUTION AUDIO TRACKS

THE FIVES powered monitors also feature 192kHz / 24-bit decoding for flawless reproduction of high-resolution audio tracks from your PC or streaming source.

ADD A SUBWOOFER

THE FIVES include a subwoofer output so you can easily add a powered subwoofer.
