Favoriser le bois

Facile à alimenter

Facile à ranger

Comment ça fonctionne

Le barbecue portatif BioLite est un moyen amusant de cuire vos aliments préférés sur le réchaud BioLite. Son design unique transforme le réchaud en une surface de cuisson sans du charbon de bois ou de propane. Avec son poids de moins de 4 lbs, ce système crée l'un des grils de table les plus légers sur le marché.

How It Works

The BioLite Portable Grill is a seamless and fun way to cook your favorite foods on the BioLite wood-burning CampStove or CampStove 2. The unique design transforms the CampStove into a grilling surface without the need for charcoal or propane. With a combined weight of under 4 pounds, this system creates one of the lightest tabletop grills on the market.
